2. The school has obtained hardware and software as outlined in its plan for the Installation Grant.
3. Every instructional classroom, including the school library media center, has instructional applications and Internet connections using appropriate hardware and software.
4. Students with disabilities have access to and utilize technology-based resources through the use of assistive devices when necessary.
5. Services are provided to staff and students of any continuation high school or alternative program that is included as part of the comprehensive high school's project application on an equitable basis.
6. The data for each site from the State Testing and Reporting System (STAR) test for the year in which initial funding was received, and each subsequent fiscal year thereafter, administered in accordance with Article 4 (commencing with 60640) of Chapter 5 of Part 33 of the Education Code, and the regulations implementing the STAR Program have been provided for purposes of the evaluation required by Education Code Section 52266.
7. The school has conducted the staff development program outlined in its plan for the Technology Installation Grant.
8. The school's teachers use technology tools to instruct students.
9. Students are using technology to acquire computer skills and to enhance the academic program.
10. The school has a policy regarding access by students to the Internet and online sites pursuant to Education Code Section 58170.5.
11. The expenditures reported have been made and the program/project has been conducted in accordance with state requirements, the approved application, and amendments for the program/project; and full records of receipts and expenditures have been maintained and are available for audit.
12. Baseline data and subsequent progress reporting required by CDE have been completed pursuant to subdivision (1) of Education Code Section 52256. For multi-site applications, these data have been submitted by each individual site.

Certification Section:

I certify that all of the above statements are true and correct; that the work which has been accomplished under the Installation Grant reflects the activities proposed in the Technology Installation Grant application approved by the California State Board of Education.
